

SMD™

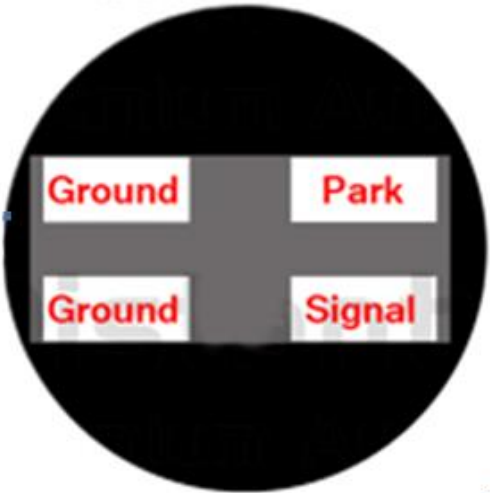

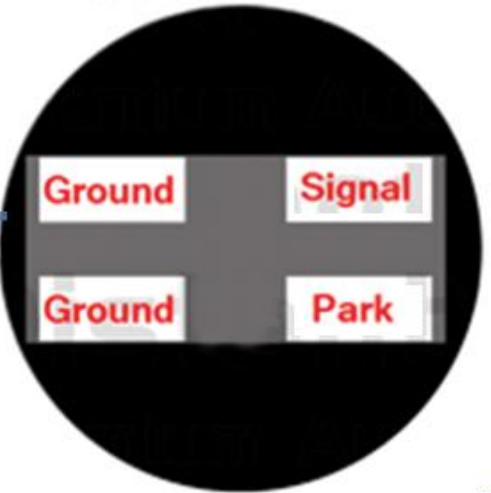

Bulb Size: 7443/ 3157

Reverse color direction

Issue: Lights color are opposite direction.

solution: To resolve this problem you will need to flip the power (both power) of the base wiring to the other side

*if you flip the ground you will see the same result as before flip the other side, and it will work.

| <p>Wrong way</p> <p>We will flip the wiring of the park and the signal</p> | <p>Correct way</p> |
